1. Purpose

The purpose of this Service Level Agreement is to define the service commitments of Aegis Bank customer support operations.

This SLA ensures:

- Timely customer responses.
- Consistent service quality.
- Clear accountability.
- Improved customer satisfaction.
- Effective issue management.

---

2. Scope

This SLA applies to:

- Customer Support Department.
- Digital Banking Support.
- Payment Operations.
- Technical Support.
- Banking Operations Teams.

It covers:

- Customer inquiries.
- Complaints.
- Technical issues.
- Transaction problems.
- Account-related requests.

---

3. SLA Principles

Aegis Bank follows these SLA principles:

Reliability

Customers receive consistent service.

Transparency

Customers are informed about issue status.

Accountability

Every request has an assigned owner.

Efficiency

Issues are resolved within defined timelines.

Continuous Improvement

Service performance is regularly reviewed.

---

4. Service Availability Standards

Aegis Bank aims to maintain high availability for customer services.

Service	Availability Target
Online Banking Platform	99.9%
Mobile Banking Application	99.9%
Customer Support System	99.5%
AI Knowledge Assistant	99.5%

---

5. Customer Support Channels

Customers can contact Aegis Bank through:

- Branch support.
- Customer service center.
- Online banking portal.
- Mobile application.
- Secure messaging channels.

---

6. Priority Classification

Customer issues are classified based on impact.

Priority 1 — Critical

Examples:

- Banking system outage.
- Security incident.
- Large-scale payment failure.

Target:

Immediate attention.

Priority 2 — High

Examples:

- Account access problems.
- Card service failure.
- Transaction issues.

Target:

Urgent handling.

Priority 3 — Medium

Examples:

- General complaints.
- Service questions.
- Information requests.

Target:

Standard resolution process.

Priority 4 — Low

Examples:

- Suggestions.
- General feedback.
- Non-urgent requests.

Target:

Normal workflow.

---

7. Response Time Commitments

Priority	Initial Response
Critical	Within 15 minutes
High	Within 1 hour
Medium	Within 8 hours
Low	Within 24 hours

---

8. Resolution Time Targets

Priority	Resolution Target
Critical	Based on incident recovery plan
High	Within 24 hours
Medium	Within 3 business days
Low	Within 5 business days

---

9. Service Performance Metrics

Aegis Bank monitors:

First Response Time

Measures how quickly customers receive initial support.

Resolution Time

Measures how quickly issues are completed.

Customer Satisfaction Score (CSAT)

Measures customer experience quality.

First Contact Resolution Rate

Measures issues solved without escalation.

Service Availability

Measures system uptime.

---

10. Escalation Rules

Issues are escalated when:

- SLA timeline is at risk.
- Customer impact increases.
- Specialized expertise is required.
- Security or compliance concerns exist.

Escalation flow:

Customer Request

↓

Support Agent

↓

Supervisor

↓

Department Manager

↓

Executive Management

---

11. AI-Assisted SLA Management

Aegis AI OS helps improve SLA performance.

AI capabilities:

- Automatic ticket classification.
- Priority prediction.
- Policy retrieval.
- Response suggestions.
- Issue trend analysis.

AI Workflow:

Customer Request

Human Approval

↓

Customer Resolution

AI does not replace customer support employees.

---

12. Customer Communication Standards

Employees must:

✅ Provide accurate updates
✅ Communicate professionally
✅ Explain delays clearly
✅ Maintain confidentiality

Employees must not:

❌ Provide incorrect information
❌ Ignore customer requests
❌ Share restricted information

---

13. SLA Monitoring & Reporting

SLA performance is reviewed regularly.

Reports include:

- Total customer requests.
- Average response time.
- Average resolution time.
- SLA compliance percentage.
- Customer satisfaction results.

Management uses reports to:

- Improve services.
- Identify problems.
- Optimize workflows.

---

14. Practical Examples

Example 1 — Mobile Banking Outage

Situation:

Customers cannot access mobile banking.

Process:

1. Issue classified as Critical.
2. IT team notified.
3. Management receives updates.
4. Service restored.
5. Incident reviewed.

Example 2 — Failed Payment

Situation:

Customer payment failed.

Process:

1. Ticket created.
2. Transaction checked.
3. Payment team investigates.
4. Customer receives resolution.

Example 3 — General Information Request

Situation:

Customer asks about account requirements.

Process:

1. Support agent responds.
2. Policy retrieved.
3. Information provided.

---

15. Frequently Asked Questions (FAQs)

Q1. Why does Aegis Bank use SLA?

To maintain consistent and measurable customer service quality.

Q2. Are all customer issues treated equally?

No. Issues are prioritized according to impact and urgency.

Q3. How does AI improve SLA performance?

AI helps classify requests, retrieve information, and reduce response time.

Q4. What happens if SLA is missed?

The issue is reviewed and escalated if required.

Q5. How is customer satisfaction measured?

Through feedback, surveys, and service quality metrics.
