---

1. Purpose

The purpose of this plan is to ensure Aegis Bank continues delivering essential banking services despite disruptive events.

Objectives include:

- Maintain customer services.
- Protect critical operations.
- Reduce business interruption.
- Support regulatory compliance.
- Preserve organizational resilience.

---

2. Scope

This plan applies to:

- Branch Operations
- Digital Banking
- Customer Support
- Finance
- HR
- IT Operations
- AI Platform
- Executive Management

---

3. Business Continuity Objectives

Aegis Bank aims to:

- Continue critical banking services.
- Protect employees.
- Maintain customer confidence.
- Restore normal operations efficiently.
- Reduce financial and operational losses.

---

4. Continuity Governance

The Business Continuity Committee oversees:

- Continuity planning.
- Crisis coordination.
- Incident escalation.
- Recovery oversight.
- Annual plan review.

Committee Members:

- CEO
- CIO
- CISO
- Chief AI Officer
- Head of Operations
- Risk Manager

---

5. Critical Business Functions

Priority order:

Priority	Business Function
Critical	Customer Authentication
Critical	Core Banking
Critical	Digital Banking
Critical	Payment Processing
High	Aegis AI OS
High	Customer Support
Medium	HR Services
Medium	Internal Reporting

---

6. Business Impact Analysis (BIA)

Business Impact Analysis evaluates:

- Operational impact.
- Financial loss.
- Customer impact.

- Regulatory consequences.
- Reputation risk.

Example:

Function	Maximum Acceptable Downtime
Core Banking	2 Hours
Payments	2 Hours
AI Knowledge Platform	4 Hours
HR Portal	8 Hours

---

7. Continuity Strategies

Aegis Bank maintains continuity through:

- High Availability Infrastructure.
- Geographic backup locations.
- Cloud failover.
- Hybrid workforce capability.
- Redundant internet connectivity.
- Alternate communication channels.

---

8. Crisis Management Process

Continuity Measures

↓

Service Monitoring

↓

Recovery

↓

Normal Operations

---

9. Alternate Work Arrangements

During disruptions employees may work through:

- Secure VPN.
- Company-managed laptops.
- Multi-factor authentication.
- Virtual collaboration platforms.

- Remote service desk.

---

10. Vendor & Third-Party Continuity

Critical vendors must maintain:

- Disaster Recovery Plans.
- Business Continuity Plans.
- Security compliance.
- Defined SLAs.
- Incident notification procedures.

Vendor continuity is reviewed annually.

---

11. AI Platform Continuity

Aegis AI OS continuity includes:

- Secondary AI infrastructure.
- Replicated vector database.
- Backup document repository.
- Secure prompt library.
- Monitoring dashboards.
- AI failover procedures.

12. Communication Plan

Communication priorities:

1. Executive Leadership
2. Incident Response Team
3. Employees
4. Customers
5. Regulators (where applicable)
6. Critical Vendors

Communication channels:

- Email

- SMS
- Emergency Hotline
- Collaboration Platform
- Internal Portal

---

13. Training & Testing

Business Continuity is validated through:

- Quarterly tabletop exercises.
- Semi-annual continuity simulations.
- Annual enterprise-wide BCP exercise.
- Lessons learned reviews.

Training includes:

- Employee awareness.
- Manager responsibilities.
- Crisis communication.
- AI service continuity.

---

14. Practical Examples

Example 1 — Regional Power Failure

Actions:

1. Activate alternate site.
2. Enable remote operations.
3. Continue digital banking.
4. Inform customers.

Example 2 — Cloud Provider Outage

Actions:

1. Switch to backup infrastructure.
2. Restore customer services.
3. Validate AI platform.
4. Continue banking operations.

Example 3 — Pandemic Response

Actions:

1. Enable work-from-home.
2. Secure VPN access.
3. Maintain customer support.
4. Continue AI-assisted banking services.

---

15. Frequently Asked Questions (FAQs)

Q1. What is Business Continuity?

Business Continuity ensures essential banking operations continue during disruptions.

Q2. How is BCP different from DRP?

BCP focuses on maintaining business operations, while DRP focuses on restoring IT systems.

Q3. Does the plan include AI services?

Yes. The continuity strategy includes Aegis AI OS, vector databases, and enterprise knowledge services.

Q4. How often is the BCP tested?

Quarterly, semi-annually, and annually through structured exercises.

Q5. Who activates the BCP?

The Business Continuity Manager, with approval from Executive Management based on the incident severity.
